

ROTHSCHILD HUMIDORS  
ELEGANCE AND HAND CRAFTSMANSHIP BEFITTING  
THE FINEST CIGARS IN THE WORLD

Functional, hand-crafted beauty for any place in your home or office.

Like the finest cigars in the world, each Rothschild Humidor is individually designed and crafted, ensuring one-of-a-kind artistry and attention to detail. As a piece of fine furniture or a work of art, Rothschild Humidors are functional as they are beautiful, delivering craftsmanship and quality found only in humidors selling for much, much more.

Optimum cigar freshness is only achieved through optimum design and materials.

Solid mahogany cores, exotic wood veneers, solid brass English hinges and lid supports, ebony trim and your choice of cedar or mahogany interiors all combined to ensure an end product that is uniquely yours. Every Rothschild Humidor is finished off like glass and lavishly protected under ten layers of hand-rubbed and polished lacquer.

Inside, absolute cigar freshness is maintained using only premium performance humidification systems and hygrometers- your finest cigars are reliably stored at the natural seventy percent moisture level they were cultivated in.

Select from our established designs or custom order to suit your individual needs.

Our established designs will reliably store and provide easy access to between 25 and 300 cigars. Each design is available in your choice of many exotic finishes, including anigre, beech, bubinga, mahogany, padauk, paldao, rosewood, walnut, zebrawood, madrone burl, mahogany crotch, carpathian elm burl, and walnut burl among others.

Should you desire a Rothschild Humidor that is more exotic or designed to match a specific personality or room placement, our craftsman will satisfy your individual needs. Unique designs, such as the Pyramid and End-Table humidor are just a sampling of the customization available from the Rothschild workshop.

Check out our matching ashtrays and travel humidors.
